Summary

Full Stack (MERN) Developer with hands-on experience building and maintaining web applications. Strong in debugging, problem isolation, and system-level thinking, with a focus on clean APIs, reusable components, and reliable UI behavior across frontend and backend layers.

Education

B.E. Computer Science and Engineering Hindusthan Institute of Technology, Coimbatore	2023 – Present CGPA: 7.72
Higher Secondary Education (12th) Vetri Vikaas Public School, Namakkal	2023 Percentage: 72.4%

Skills

Languages: JavaScript, TypeScript, Java, Python, SQL	Frontend: React, Tailwind CSS
Backend: Node.js, Express.js, MongoDB, SQL	Tools / Platforms: Git, GitHub, REST APIs, VS Code

Work Experience

Frontend Developer Intern Hindusthan Educational Institutions	Sep 2025 – Feb 2026
- Developed and maintained responsive React components for academic and administrative web portals. - Built reusable UI components including data tables, filters, and tab-based layouts. - Improved UI consistency, accessibility, and overall user experience across multiple modules.	
Full Stack Development Intern Casagenix (UK-based)	Jun 2025 – Jul 2026
- Contributed to a full-stack contractor job and work-order management platform. - Integrated RESTful APIs with frontend components to manage workflows and status tracking. - Collaborated across frontend, backend, testing, and deployment in an Agile environment.	

Projects

College Website — Hindusthan Institute of Technology	
- Designed and developed a responsive multi-page college website using React. - Implemented reusable components and structured routing for academic and administrative content.	
Sentinel — Real-Time Intelligence Monitoring System	
- Built a real-time monitoring system aggregating multiple open-source intelligence (OSINT) data sources. - Implemented backend APIs to process live data streams and serve structured responses. - Developed interactive visual components to analyze activity patterns and anomalies.	
PlacementPrep — AI-Powered Interview Preparation Platform	
- Built a full-stack platform for company- and role-specific interview preparation. - Designed adaptive learning roadmaps based on mock test performance and preparation timelines.	
Smart Campus Attendance & Learning Management System	
- Developed a software-based attendance system using Wi-Fi verification and face recognition. - Implemented automated scheduling, notifications, and report generation for classroom workflows.	
AI Resume Advisor	
- Built a resume analysis tool focused on structure, clarity, and ATS compatibility. - Generated actionable improvement suggestions using rule-based and AI-assisted analysis.	

Achievements

- KEC National Hackathon — Finalist (2025)
- Road Safety Hackathon — Semi Finalist (2025)
